**Performance Task: Grade 3**

The city has a lovely park where cats like to come in the summer. The bar graph below shows the number of each type of cats in a city park.

1. Complete the following to show the number of each cat in the city park.

Type	Number of cats
Grey	<input type="text"/>
Yellow	<input type="text"/>
Calico	<input type="text"/>
White	<input type="text"/>

2. What is the total number of cats that visited the park?
  
3. How many times the number of white cats are the grey cats?
  
4. Your friend says that if all the grey and white cats were added together, and all of the yellow and calico cats were added together, the totals would be equal. Is he correct? Why or why not? Explain your answer.
